Strict adherence to the Standard Operating Procedure (SOP) is required in order to obtain highest quality result(s).

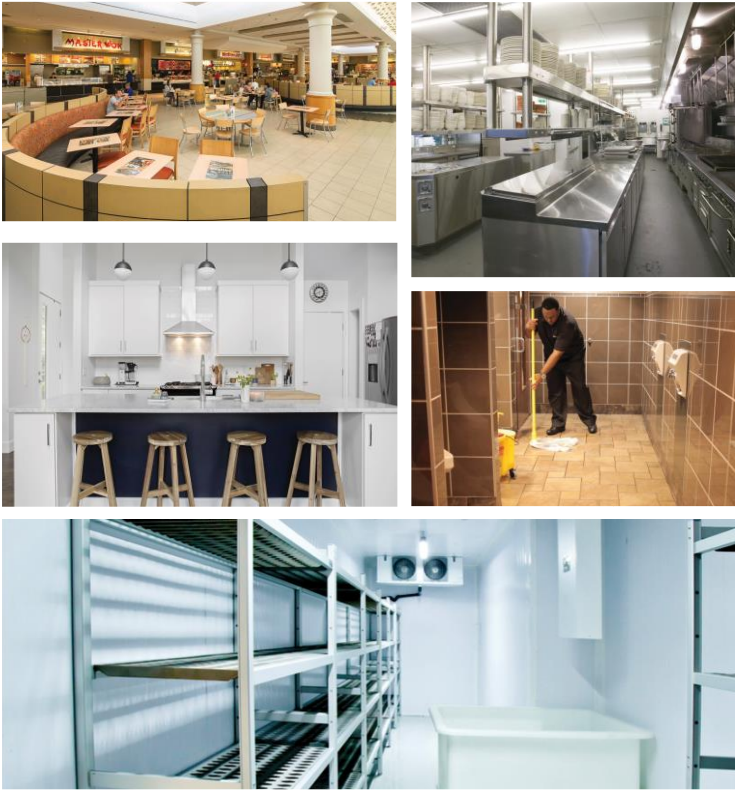

Accredited Applicators Trainer & Certified by Airestec are recommended to be used. Kindly contact us for clarification. (Only for Malaysia)

BIOACTIVE MICROORGANISM ENZYME SURFACE CLEANER (BMESC) / MULTI-PURPOSE CLEANER

- Specifically developed for Hard Surfaces Cleaning.
- Digest & Release Proteins, Blood, Biofilms (Bacteria/Fungal/Mould/Algae) from surfaces, cracks & crevices.
- Multi-Enzyme based product, Readily Biodegradable (82% within 28 days), Wastewater Plants, Eco, Aqua & Agriculture System.
- Non-Corrosive/Non-Destructive to Wood, Tiles, Paints, Plastic, Aluminium, Rubber & Silicone.
- Bio, Green, Eco & Halal Certified.
- Food Grade, Non-GMO, Water Table & environmentally friendly.

AIRESTEC BIOACTIVE MICROORGANISM ENZYME SURFACE CLEANER (BMESC)/MULTI-PURPOSE CLEANER

Crumbs, spillages and general food debris will attract flies, cockroaches and rats. Thorough floor cleaning is imperative and has to be done regularly to avoid the spread of germs and the potential for an infestation. Grimes are multiple substrates of fats, oil, grease, bacteria, organic and inorganic materials. Conventional Cleaning only removes the superficial layer of grimes. Biofilms are a food source of bacteria, fungi and moulds. Therefore, they will thrive in an aqueous or wet environment then spread throughout the areas.

Meanwhile, the drain-line blockages also can cause the proliferation of bacteria, fungi and moulds that can lead to food spoilage/cross-contamination. Insect infestation and unpleasant smell will be another major issue.

Due to the multi-enzyme properties, Airestec BMESC/Multi-Purpose cleaner can digest then remove all the contaminants deep into nooks, cracks and crevices. Since it is incorporated with natural active ingredients, it can remove the 'bad smell' instead of mask them.

Benefits of Our Solution

1. Effectively remove grimes, grease & heavy stains.
2. Complement the environment & waste water.
3. Deep penetrating cleaner & doesn't damage or weaken structures.
4. Prevents contamination, food spoilage & odour.
